Terrapins and Hawks and Snakes ...Oh My!

Scales & Tales, an environmental education program of the Maryland Park Service, allows our students the opportunity to learn about Maryland wildlife. The event is always a hit with our brave preschoolers, kindergartners, and first-graders.

Mark Spurrier of Cunningham Falls and Gambrill State Parks teaches our students about wildlife native to Maryland. He shares the stories about how the animals come to the Maryland Park Service. The hawk, for instance, was injured by a car when the bird was diving for a mouse that was eating trash thrown onto the road.
