

Second Grade IXL Summer Work

Dear Parents,

Over the summer we are asking that the students continue to use IXL. It has been a wonderful tool we have used during the school year, and it will be a great way to keep progressing over the summer!

I have attached some skills that will be beneficial to practice over the summer. Some of these skills have been "mastered", but it is still helpful to practice the skill again!

1st Grade Level:

- A.11-A.19- Counting forward and backward and even and odd
- B.11, B.15-B.19- Addition
- D.5, D.11-D.14- Subtraction
- F.5
- I.3-I.4- Place Value
- J.1-J.3- Fractions
- K.11-K.12- Geometry
- L.3- Left, Middle, and Right
- M.1-M.3- Data and Graphs
- N.4-N.5- Measurement
- O.2-O.4- Money
- S.3, S.8-S.9-Time

The students are always welcome to choose other skills to practice as well! I hope that you will encourage your student to use IXL daily! It will really help them to get back into school in the fall!

Fondly,

Nichole Isola
